What Your Colleagues are Saying About SEAK’s Expert Witness Training

“I was the expert [in a high profile case] in November. The jury believed me and gave the family a $27.5 million verdict! Thanks for all your good training!”

“Clear, concise, no-nonsense, practical and informative.”

“I would like to thank you for the incredibly helpful workshop you offered last weekend. It was the best investment I have made in my career. I look forward to seeing you both! Thank you, again, for giving me something priceless.”

“I am tremendously more confident in my expert work thanks to your input, books, seminars and materials. Retaining counsel often give compliments on my reports and discussions, and I tell them I learned it all at SEAK.”

“I bragged about you guys to an expert witness group last evening. I recommended that they all attend your seminars!”

“I recently had a depo in FL and it went so well that the lawyer thought I had been doing them for years. I told him no, just good training from SEAK.”

“I would like to sincerely thank you for all that you have done to help improve my professional presence in the courtroom, to be more confident while testifying, and to actually enjoy doing it.”

“Steve, without knowing you, knowing SEAK, and going to all the conferences that I have attended with your firm for expert witness training, and without your “one-on-one” training, this case would not have ended the way it eventually did. Whenever I get a chance, I recommend SEAK and particularly recommend you and Mr. Mangraviti. In addition, you have really helped in the way you trained my office assistant at the assistants course in Chicago.”

“Yours was one of the best courses in which I have ever participated and that covers a lot of territory in my 40 years of practice! I can’t wait to put the ideas and strategies into place. I will be in touch! Many thanks.”

“Just wanted to express my deep gratitude to you and SEAK for teaching me about the expert witness business. It has really changed my life in so many ways!”

“You both just totally blew me away!! I am so very appreciative of your time, energy and commitment in providing this stellar course! I now feel like I am prepared to meet “The Pit Bulls” this week at my deposition – I am eternally grateful to you and Jim for your incredible wealth of knowledge and the willingness to share some of the depths of your insights!”

“The two times you have led (expert witness) training sessions at our company meeting have been the best training sessions on ANY topics we have had in the past 14 years and you can quote me on that...I look forward to having you back.”

Questions & Answers.

8:30–9:00 Understanding How Much Each New Client is Worth
No marketing technique can be properly evaluated until an expert understands how to calculate how much each new client is worth. In this segment the faculty will explain the numerous factors that must be accounted for in order to determine the true value of a new client. Questions & Answers.

9:00–10:00 The Special Dynamics of Marketing an Expert Witness Practice
Marketing an expert witness practice presents unique challenges. In this segment the faculty will discuss the three principles of marketing and how to account for and minimize a potential backlash from poorly conceived or worded marketing materials. Questions & Answers.

10:00–10:15 BREAK AND NETWORKING OPPORTUNITY

10:15–11:15 The 24/7/365 Approach to Expert Witness Business Development
A critical concept of expert witness business development is that everything an expert or his staff does can influence how much work the expert is able to obtain. The faculty will detail best practices that will help increase any expert’s case referrals, including telephone intake procedures, gatekeeper assignment, training and protocol, client and lead communication protocol, contact information availability and dissemination, how to excel during the first call from a prospective client, making yourself and your CV as attractive as possible, rate setting, engagement terms, and billing procedures. Examples from the attendees will be critiqued, analyzed, and discussed. Questions & Answers.

11:15–12:00 Best Practices in Evaluating and Tracking Business Development Efforts
Any proper evaluation of a business development strategy must accurately account for the direct and indirect revenue generated by the strategy as well as the out of pocket and hidden costs associated with the strategy. In this segment the faculty will explain how to properly account for cost and revenue from an expert witness marketing strategy. Also discussed and explained will be specific methodologies for tracking the success of your business development techniques. Questions & Answers.

12:00–12:45 LUNCH PROVIDED WITH FACULTY

12:45–1:45 Positioning Yourself in the Best Possible Light
Expert witnesses who are more attractive to potential clients will get more business. In this segment the faculty will explain how to make yourself as attractive as possible to potential clients. Specifically, the faculty will explain in detail how to project a positive and professional image (and the biggest mistakes experts make in this area), how case selection influences your image, which cases/law firms to seek out and which cases/law firms to avoid, demonstrably effective communication skills, filling in gaps and building your CV, keeping a low profile, and gaining the hands-on and relevant testifying experience that attorneys want to see. Questions & Answers.

1:45–2:45 Maximizing Repeat and Word of Mouth Business: Evidence Based Best Practices
By far the most valuable and cost effective business development technique for expert witnesses is generating positive word of mouth. In this segment the faculty will discuss the results of their proprietary research about action steps to take and what specifically will make attorneys want to hire an expert again or recommend that expert to a colleague, including: accessibility, exceeding expectations (and how to do this), communication skills, credibility, meeting deadlines, cross-examination performance, a personality that is likeable, fees and billings, work ethic, preparation, strength of opinions, and effectiveness on the witness stand. Questions & Answers.

2:45–3:00 BREAK AND NETWORKING OPPORTUNITY

3:00–4:00 Finding your Niche
One of the most common and serious business development mistakes expert witnesses make is holding oneself out as an expert in numerous and broad areas. This is usually done to maximize potential business, but almost always has the opposite result. In this segment the faculty will detail the substantial advantages which can flow from positioning yourself in the best narrow and lucrative niche including branding, vastly more efficient target marketing, decreased competition, increased subject matter knowledge, and making yourself far more attractive to potential clients. Questions & Answers.

4:00–5:00 Identifying your Target Market
Business development can be greatly facilitated when an expert witness is able to identify and reach the precise subset of lawyers most likely to hire that expert. In this segment the faculty will explain the benefits of finely targeted lead identification and will provide specific strategies for doing so including bar association membership and practice sub groups, online directories, CLE attendees and faculty, stand alone bar associations, networking, and leveraging your research. The faculty will use volunteer attendees as examples and discuss and explain how these volunteers can identify and reach their target market. Questions & Answers.

Dallas/Fort Worth Airport Marriott Irving, TX
Saturday, November 9, 2013 (Day One)

7:30 – 8:00  Registration and Continental Breakfast with Faculty

PART I: LAW, STRATEGY & SKILLS

8:00 – 8:45  Law and Procedure  Attendees will learn the key legal principles and rules which govern depositions including what questions can be asked, the legal basis and limits of “fishing expeditions,” applicability and limits of claims of privilege, meaning and effect of “off the record,” meaning and effect of “the standard stipulations,” discoverability of expert-retaining counsel communication, time limits, limitations on questioning because of abusive intent, harassment, or undue burden, admissibility of deposition questions at trial, reading and signing, and protective orders. Questions and Answers  Learning Objective: Explain the law and procedure governing expert witness depositions.

8:45 – 9:30  Understanding Opposing Counsel’s Strategies and Goals  Excelling at deposition requires an appreciation of opposing counsel’s likely strategies. Attendees will learn why opposing counsel will likely ask open ended questions and may interrogate the witness in a non-confrontational manner designed to keep the witness talking. Attendees will also learn the numerous likely goals of retaining counsel and will be provided with suggestions for dealing with each of these. These likely goals include learning the expert’s opinions, learning the expert’s qualifications, locking down the expert, sizing up the expert as a witness, probing for bias, discovering the expert’s factual assumptions, gathering as much information as possible, using the expert to help his own case, intimidating the expert, learning what the expert did, and setting the stage to later get the expert or the expert’s opinion excluded. In addition, the faculty will discuss the strategies of retaining counsel at deposition including objections and questioning of their own expert. Questions and Answers  Learning Objective: List the strategies and goals of opposing counsel.

9:30 – 10:15 How to Improve Your Active Listening Skills  Excelling at deposition requires superior active listening skills. Deponents should be able to recognize and recall every word of a question and should be able to repeat back questions asked of them verbatim. In this segment attendees will be shown how to improve their active listening skills using techniques such as picturing the question as if it were written on a white board. The group will conduct interactive exercises to assess, practice and improve their active listening skills. Questions and Answers  Learning Objective: Describe techniques for improving active listening.

10:15 – 10:30  Break (Networking Opportunity)

10:30 – 11:15 How to Leave Yourself Wiggle Room  A fundamental technique for truthfully and artfully answering deposition questions is to do so in a manner, where appropriate, that does not leave the witness 100% boxed in and locked down. In this segment attendees will learn how to recognize and truthfully respond to lock down questions in a way that leaves the expert some flexibility, but does not make the expert sound evasive or defensive. The group will conduct interactive exercises to assess, practice and improve their responses to lock down questions. Questions and Answers  Learning Objective: List techniques for recognizing and truthfully and artfully answering lock down questions.

11:15 – 12:00 Deposition Strategies for Expert Witnesses  Attendees will learn forty-seven techniques for excelling at their deposition. These include telling the whole truth, listening carefully to objections, insisting on finishing answers, not exaggerating, speculating, or guessing, avoiding arguing, not showing weakness, following a question answering protocol, staying calm, avoiding absolute words, avoiding rambling by putting a period on the answer, recognition of unintelligible questions, breaking counsel’s momentum, staying in your sandbox, using time limits to your advantage, and encouraging opposing counsel to lose his cool. Many of these techniques will be demonstrated by short videos and interactive exercises. Questions and Answers  Learning Objective: List techniques for excelling at your deposition.

12:00 – 12:45  Lunch (Provided with Faculty)

12:45 – 1:30 Deposition Strategies for Expert Witnesses (Continued)

PART II: CORE AREAS OF INQUIRY

1:30 – 2:30  Qualifications  Expert witnesses should expect probing questions regarding why specifically they are qualified to opine in the case. Failure to excel in this area can lead to the expert being excluded from testifying – which can be a career ending event. Attendees will learn techniques for answering expected questions about their qualifications. Issues covered include articulating relevant experience and education and how these apply to the case at hand, dealing with missing or sub optimum levels of experience or credentials, CV issues, “have you ever done?” questions, number of similar cases, and recognizing what you are not an expert in. Many of these lines of inquiry will be demonstrated by short videos and will be practiced by the attendees through interactive exercises. Questions and Answers  Learning Objective: Describe techniques for improving qualifications questions.

2:30 – 3:15  Bias and Fees  The more opposing counsel can establish an expert as being biased, the less believable that expert will be. Attendees will learn techniques for answering expected questions about their bias and fees. Issues covered include fee questions, plaintiff v. defendant issues, long held beliefs, billings to date, bills, prior writings, prior testimony, association with outside groups, political beliefs, opinion always the same in every case, influence of retaining counsel, and percentage of income questions. Many of these lines of inquiry will be demonstrated by short videos and will be practiced by the attendees through interactive exercises. Questions and Answers  Learning Objective: Explain methods for answering bias and fees questions.

3:15 – 3:30  Break (Networking Opportunity)

Attendees will learn techniques for answering expected questions about their opinions. Issues covered include what the expert will and will not be testifying to, degree of flexibility in opinions, areas of agreement with opposing expert, new/additional opinions, degree of certainty, and rationale for opinions. Questions and Answers  Learning Objective: Describe strategies for responding to questions about your opinions.

7:00 – 7:45  Methodology  Opposing counsel may use the deposition to set the expert witness up for a later motion to exclude under Daubert. If the expert is so excluded this can often be a career ending occurrence. Attendees will learn techniques for answering expected questions about their methodology. Issues covered include how the expert's theory was tested, where the theory was subjected to peer review and publication, known or potential error rate, standards and controls, general acceptance in field, evidence of level of care, why extrapolation was justified, alternative explanations, and basis of research. Many of these lines of inquiry will be demonstrated by short videos and will be practiced by the attendees through interactive exercises. Questions and Answers Learning Objective: Explain techniques to protect yourself from being set up for a Daubert challenge.

7:45 – 8:15  Your Expert Witness Report  In many if not most cases an expert witness will have submitted a written report prior to deposition. The expert witness's report will often raise numerous potential issues at deposition. Attendees will learn techniques for answering expected questions about their reports. Issues covered include who helped write the report, drafts/preliminary reports, research, footnotes or lack thereof, and mistakes/typos. Many of these lines of inquiry will be demonstrated by short videos and will be practiced by the attendees through interactive exercises. Questions and Answers Learning Objective: Describe strategies for answering questions about your report.

8:15 – 9:00  Facts/Bases of Opinions  An expert witness's opinions are only as strong as what these opinions are based on. Expert witnesses can expect to be questioned closely regarding the bases of their opinions. Attendees will learn techniques for answering expected questions about the basis of their opinions. Issues covered include key facts of the case, assumptions, documentation, existence and extent of firsthand inspection, what was not done, cherry picking, interviews, veracity judgments, investigation, reliance on staff and/or other experts, timeline, and hypothetical questions. Many of these lines of inquiry will be demonstrated by short videos and will be practiced by the attendees through interactive exercises. Questions and Answers Learning Objective: Explain facts/bases of opinions.

9:00 – 9:15  Break (Networking Opportunity)

Many of these lines of inquiry will be demonstrated by short videos and will be practiced by the attendees through interactive exercises. Questions and Answers Learning Objective: List the key facts that you will likely be asked about at deposition.

9:45 – 10:15  Giving a Deposition in a Case Where You Didn't Write a Report  It is becoming increasingly common for expert witnesses in state courts to be asked not to write a report. In this segment the faculty will offer practical advice regarding resulting issues such as, how to prepare for a deposition where you did not write a report, disclosing with retaining counsel potentially drafting a simple list of opinions with reasons, and special techniques to prepare for a deposition in cases where a report was not written. Questions and Answers Learning Objective: Discuss options to excel at depositions in cases where no report was written.

10:15 – 10:45  Dealing with Skeletons in Your Closet  Some experts are concerned about being asked about things in their past that they rather not talk about. In many cases this area may be inappropriate. In further instances, questions about skeletons in the closet may be permissible at deposition, but would probably not be admissible at trial. In this segment the faculty will explain what is and is not likely to be a problem and how to deal with common issues such as being sued, disciplinary problems, being terminated, failing tests, mediocre or worse grades, health issues, private life, divorces, bankruptcy, arrests, convictions, etc. Each attendee will be afforded the opportunity to anonymously submit to the faculty for review, comment, and advice any issues which they may be concerned with in their own backgrounds. Questions and Answers Learning Objective: Explain techniques for dealing with skeletons in your closet.
